STATEMENT OF SUBSTANCE  
OF INTERVIEW

Examining Group  
Patent Application  
Docket No. UF.821XT  
Serial No. 10/722,285

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Examiner : Paras D. Shah  
Art Unit : 2626  
Applicant : Rahul Shrivastav  
Serial No. : 10/722,285  
Filed : November 25, 2003  
Confirm. No. : 9081  
For : Audio-Based Method, System, and Apparatus for Measurement of Voice Quality

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

STATEMENT OF SUBSTANCE OF INTERVIEW

The undersigned, Applicant, and Examiner Shah conducted a telephonic interview on February 9, 2010 regarding the above-referenced patent application. The subject invention as claimed, the Office Action dated September 2, 2009, and the cited references were discussed. Participants discussed the distinguishing features of the subject application as claimed compared to the cited references, particularly, Bayya. The undersigned and Applicant noted that Bayya is interested in measuring how speech is corrupted in a communication system while the claimed invention is directed to diagnosing a voice signal, independent of whether the voice signal passed through a communication system. The undersigned suggested incorporation of claims 3 and 6 into independent claim 1. Examiner Shah noted that an updated search, as well as, a closer look at the

cited prior art would be needed as the amendment was proposed during the interview. Accordingly, no agreement was reached.

The Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 or 1.17 as required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,

James S. Parker
